

## PHOTO RELEASE

### **What is a Release form for?**

A release form is an agreement between you and Oxfordshire Breastfeeding Support (OBS), under which you give us your permission to use your image/s, story or other materials you have contributed towards a project, in our print publications, social media, website and other end products such as films.

Please read this document as, once it is signed by you, it is a legally binding document between you and us.

### **Why do we need a Release form?**

To make sure you understand and agree that your image, story or other work may appear in OBS's general publicity or fund raising material or as part of a named project. It offers you and OBS protection against your contribution being used in a way you have not agreed to.

### **What happens if I sign this Release form?**

You allow OBS to use your image, story or any other materials you have contributed for such purposes as we may decide. OBS will only ever knowingly use an image or a piece of work to promote our mission and to give positive messages about breastfeeding.

*By signing this Release Form you understand that you will be giving OBS permission to decide how to use your contribution without future contact with you.*

### **What happens if I don't sign?**

We won't use your image or work.

### **Who can sign?**

If you are over 13 years old you can sign the form yourself. We need the signature of a parent, guardian or carer to sign on behalf of anyone under 13 (including babies).

### **Where can I read more about how you handle my personal information?**

You can read our privacy policy at

<https://www.oxbreastfeedingsupport.org/index.php/aboutus/privacy>

**For all images - please check with the person who took the photo that they are happy for us to use it:** if it was a professional photographer they might hold the copyright to the image.
